Who Are We?

Founded in 2005 and headquartered in Newport News, VA., TTC is a Small Business operating on a business philosophy emanating from its founders Jose Rojas and Frank Vella. In 2017, TTC ownership expanded to include Sheri Robinson. All three are directly involved in company operations and are always available to, our employees, customers, stakeholders and contracting representatives. They empower our on-site and corporate personnel to make decisions in the best interest of the customer mission. This gives our customers direct access to TTC’s highest corporate level and our delivery personnel unmatched authority to do what is in the best interest of the customers’ missions.

We deliver best value Professional Services and Information Technology (IT) services and solutions through the innovative application of our team members’ experience and use of current, innovative technologies. We offer the experience, creativity and intellectual capital of a large services firm and combine it with the entrepreneurial spirit and client focus of a small business.

What We Do

TTC is a full lifecycle IT Management and Professional Services solution built on industry best practices.

We deliver technical solutions for cloud, cybersecurity, data analytics, SME's and professional services. We help Defense and Civilian Agencies redefine the way they use, care for, and share their data and information to accomplish the mission. Our people modernize enterprise IT environments for government customers and maintain them via their preferred service delivery methods.

Within our expertise areas, we provide assessments, component design, implementation plans, test plans, application deployment and integration, process and policy definition, knowledge transfer, and ongoing
